ABOUT GOVERNMENT LAW COLLEGE:

Government Law College (GLC), established in 1855, has the distinction of being the oldest Law College in Asia, dating even prior to the University of Mumbai, and enjoys a pre-eminent reputation for excellence in the field of legal education.

Government Law College or GLC, as it is popularly known, continues to be an institution exclusively for the students of law. In addition to the old building, the college now has an annexe building, September 1988 onwards, which houses additional class rooms and a reference library.

GLC, which has a rich heritage and pedigree, is the repository of erudition in the legal firmament and has had the privilege of guidance and tutelage under eminent legal luminaries such as Dr. B. R. Ambedkar, Lokmanya Tilak, Justice M. C. Chagla, Sir Motilal Setalvad (First Attorney General of India), Sir Dinshaw Mulla, Justice Y. V. Chandrachud, Mr. Nani Palkhivala and several others who have adorned benches of the Supreme Court of India and the Bombay High Court. The students who have passed out from the portals of GLC have distinguished themselves at the Bar, the Judiciary and the Academe. From these portals, have passed the likes of five Chief Justices of the Supreme Court of India, Smt. Pratibha Devisingh Patil, former President of India, and Mr. Lal Krishna Advani, former deputy Prime Minister of India.

ABOUT THE DEPARTMENT

The post graduate department of Law of GLC undertakes to guide its students about the growing field of research in consonance with the emergence of new issues pertaining to the interdisciplinary aspects in the field. The course spans across an in-depth engagement in specialised studies for four semesters, each semester dealing with detailed analysis of the various concepts involved in the curriculum. The department aims at contributing commendable academic output by engaging experts across the field.

The LL.M program commenced in the year 2022 spanning across three fields of specialisation namely Constitutional and Administrative law, Business Law and Intellectual property rights. These three fields of specialisation incorporate a holistic learning of the concepts along with the societal perspective and the correlational impact. The course encapsulates four foundation papers which cover fundamental constitutional aspects and an in-depth learning of key principles. It also extends to a deep understanding of Research techniques and methodologies. The aim of the course is to build a comprehensive understanding in the respective fields while also catering to the academic demands of the present times.

ABOUT THE CONFERENCE

The conference on "**Navigating Legal Frontiers in Artificial Intelligence: Challenges and Solutions**" aims to delve into the complex intersection of AI technology and the legal landscape. As AI continues to advance rapidly, it presents numerous challenges and opportunities for the legal realm. This conference seeks to explore various dimensions of this dynamic relationship, including issues of accountability, transparency, bias mitigation, intellectual property rights, data privacy, and the ethical implications of AI applications in legal systems. Through keynote speeches, panel discussions, and interactive sessions, the conference aims to foster dialogue among legal experts, technologists, policymakers, and scholars to address the multifaceted challenges posed by AI within the legal framework.

The upcoming conference on "**Navigating Legal Frontiers in Artificial Intelligence: Challenges and Solutions**" represents a pivotal moment in the intersection of technology and Law. With AI reshaping industries and societies at an unprecedented pace, the legal community faces a myriad of intricate challenges. From navigating the ethical implications of AI-driven decision-making to ensuring accountability and transparency in automated systems, the conference seeks to illuminate the complexities inherent in this evolving landscape. As AI algorithms increasingly influence legal processes, questions of bias mitigation, data privacy, and intellectual property rights become paramount. By convening legal experts, technologists, and policymakers, the conference aims to facilitate crucial discussions and collaborative efforts towards crafting informed and equitable legal frameworks for the AI era. The conference will be conducted in on-line mode.
